

Employment

- Mar 2014–now* **Google Inc., Mountain View, CA**
Director, Research Engineering (Nov 2017–now)
Senior Staff Research Scientist (Mar 2014–Oct 2017)
- Since Jan. 2015, part of the “Strategic Technologies” team. Managing a group of 20 researchers.
 - From Mar. 2014 until Dec. 2014, part of the “Personal Search Infrastructure” team.
- Oct 2001–Mar 2014* **Microsoft Corporation, Microsoft Research Silicon Valley, Mountain View, CA**
Principal Researcher (Mar 2006–Mar 2014)
Senior Researcher (Oct 2005–Mar 2006)
Researcher (Oct 2001–Sep 2005)
- Collaborated with Bing on various facets of social search.
 - Explored link-based ranking techniques for web search results.
 - Developed the Scalable Hyperlink Store, a specialized database giving extremely fast access to nodes and edges of the web graph induced by the Bing corpus.
 - Explored techniques for identifying spam web pages.
 - Consulted on large-scale web crawling for Bing.
 - Principal contributor to PageTurner, a large-scale study of the evolution of web pages.
 - Contributed to Boxwood, a distributed, scalable, and reliable B-Tree system.
 - Four Microsoft Gold Star awards; three Microsoft Research Tech Transfer Awards; Microsoft Corporate Bench Program class of 2005; promoted to Partner level in 2009.
- Oct 1993–Sep 2001* **Digital Equipment Corporation (Compaq since 1998), Systems Research Center, Palo Alto, CA**
Manager, Programming Technology (Jun 2001–Sep 2001)
- Managed a group of five Ph.D.-level researchers. Responsible for four projects.
- Senior Member of Technical Staff (Sep 1999–Jun 2001)*
- Principal contributor to Mercator, an extensible, high-performance web crawler. Mercator formed the web crawling component of AltaVista’s *Search Engine 3* product, which sold to over 1,200 enterprise customers, and it became the standard web crawler of the various AltaVista sites.
- Software Principal Engineer (Oct 1993–Sep 1999)*
- Main contributor to JCAT, a Java-based algorithm animation system.
 - Worked on tools and techniques for building distributed, collaborative, web-based applications.
 - Designed and implemented Obliq-3D, a fast-turnaround, interactive 3D animation environment.

Education

- January 1994* **Ph.D. in Computer Science, University of Illinois at Urbana-Champaign**
- Dissertation “*Programming in Three Dimensions*” supervised by Prof. Simon Kaplan.
- May 1989* **Diplom-Wirtschaftsinformatiker, Technical University of Darmstadt, Germany**
- Program covers Computer Science, Mathematics, Business Administration, Economics, and Law.

Honors

ACM Distinguished Scientist, since 2008.
IEEE Senior Member, since 2012.

Professional Service

ACM Transactions on the Web (TWEB)

Editor in Chief, 2011–2015
Associate Editor, 2005–2011

Communications of the ACM (CACM)

Co-Chair of News Board, 2008–2014

Journal of Visual Languages and Computing (JVLC)

Associate Editor, 2001–2011
Visual Software Tools Editor, 1996–2001

ACM International Conference on Web Search and Data Mining (WSDM)

Steering Committee Member, since 2010
Conference Chair, 2008
Tutorials Co-Chair, 2011
Senior Program Committee Member, 2009, 2012, 2015, 2016, 2017, 2018
Program Committee Member, 2010

International World Wide Web Conference (WWW)

Program Co-Chair, 2004
Co-Chair of “Posters” track, 2011
Chair of “Tutorials and Workshops” track, 2007
Co-Chair of “Search” track, 2010
Co-Chair of “Industrial Practice & Experience” track, 2006, 2009
Vice Chair of “Browsers and User Interfaces” track, 2003
Deputy Chair of “Browsers and User Interfaces” track, 2002
Deputy Chair of “Browsers and Tools” track, 2001
Senior Program Committee Member, 2016
Program Committee Member, 1999, 2000, 2005, 2012

International ACM SIGIR Conference on Research and Development in Information Retrieval (SIGIR)

Area Chair, 2011, 2012, 2013
Program Committee Member, 2005, 2006, 2008, 2018

ACM SIGKDD International Conference on Knowledge Discovery and Data Mining (KDD)

Senior Program Committee Member, 2010
Program Committee Member, 2008

IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM)

Program Committee Member, 2017, 2018

ACM Conference on Information and Knowledge Management (CIKM)

Co-chair of Industry Track, 2015.
Program Committee Member, 2008

Conference on Design of Experimental Search and Information Retrieval Systems (DESIREs)

Steering Committee Member, since 2017

BigData Innovators Gathering (BIG)

Steering Committee, since 2017
Program Co-Chair, 2017
Program Committee Member, 2018

International Workshop on Adversarial Information Retrieval on the Web (AIRWEB)

Program Co-Chair, 2006
Program Committee Member, 2005, 2007, 2008, 2009

International Conference on Internet Computing (IC)

Program Committee Member, Section on Search and Information Retrieval for the Web, 2003

Workshop on Algorithms and Models for the Web Graph (WAW)

Program Committee Member, 2003

International Workshop on Visual Languages and Computing (VLC)
Program Committee Member, 2003, 2004, 2006, 2007, 2008

IEEE Symposium on Visual Languages (VL)
Video Chair, 1999
Program Committee Member, 1996, 1998, 1999, 2000, 2005, 2006

Patents

- Issued* US Patent 6,263,364. *Web crawler system using plurality of parallel priority level queues having distinct associated download priority levels for prioritizing document downloading and maintaining document freshness* (with A. Heydon and J. Wiener).
- US Patent 6,301,614. *System and method for efficient representation of data set addresses in a web crawler* (with A. Heydon).
- US Patent 6,321,265. *System and method for enforcing politeness while scheduling downloads in a web crawler* (with A. Heydon).
- US Patent 6,351,755. *System and method for associating an extensible set of data with documents downloaded by a web crawler* (with A. Heydon).
- US Patent 6,377,984. *Web crawler system using parallel queues for queing data sets having common address and concurrently downloading data associated with data set in each queue* (with A. Heydon).
- US Patent 6,594,694. *System and method for near-uniform sampling of web page addresses* (with A. Heydon, M. Mitzenmacher and M. Henzinger).
- US Patent 6,910,077. *System and method for identifying cloaked web servers.*
- US Patent 6,952,730. *System and method for efficient filtering of data set addresses in a web crawler* (with A. Heydon).
- US Patent 7,007,027. *Algorithm for tree traversals using left links* (with C. Thekkath).
- US Patent 7,072,904. *Deletion and compaction using versioned nodes* (with C. Thekkath).
- US Patent 7,082,438. *Algorithm for tree traversals using left links* (with C. Thekkath).
- US Patent 7,139,747. *System and method for distributed web crawling.*
- US Patent 7,340,467. *System and method for maintaining a distributed database of hyperlinks.*
- US Patent 7,627,777. *Fault tolerance scheme for distributed hyperlink database.*
- US Patent 7,680,785. *Systems and methods for inferring uniform resource locator (URL) normalization rules.*
- US Patent 7,739,281. *Systems and methods for ranking documents based upon structurally interrelated information.*
- US Patent 7,783,671. *Deletion and compaction using versioned nodes* (with C. Thekkath).
- US Patent 7,792,854. *Query dependent link-based ranking.*
- US Patent 7,818,334. *Query dependent link-based ranking using authority scores.*
- US Patent 7,962,510. *Using content analysis to detect spam web pages* (with D. Fetterly, M. Manasse and A. Ntoulas).
- US Patent 8,209,305. *Incremental update scheme for hyperlink database.*
- US Patent 8,392,366. *Changing number of machines running distributed hyperlink database.*
- US Patent 8,666,920. *Estimating shortest distances in graphs* (with S. Gollapudi, R. Panigrahy and A. Das Sarma).
- US Patent 8,856,112. *Considering document endorsements when processing queries* (with R. Panigrahy and R. Shenoy).
- US Patent 8,949,232. *Social network recommended content and recommending members for personalized search results* (with T. Harrington, R. Panigrahy and R. Shenoy).
